Storage: Do not store in close proximity to heat, sparks, open flames, strong acids, and strong bases.

To minimize product degradation, avoid prolonged exposure of the material to air. Keep container tightly closed when not in use.

Shelf Life: Shelf life of the product depends very much on storage conditions, particularly temperature and exposure to light and air.

Disclaimer: Being a natural product, analytical values of the consignment may show minor variations from the above values, well within the limits of the standard specifications for the material.
